

Job description

Job Title :	Field Geologist / GIT
Immediate Supervisor:	Exploration Coordinator
Sector:	Exploration
Service :	Exploration
Centre de coûts :	N/A

POSITION SUMMARY

The Field Geologist / GIT will support the exploration team and related activities at the Troilus project in Northern Quebec. They will work a 2-week on / 2-week off schedule. The Field Geologist / GIT will report directly to the exploration team, and follow directives given by the geologists. The main duty of the position is to perform helicopter prospecting in a team of 2 to 3 people, where the Field Geologist / GIT is the team lead. The Field Geologist / GIT must be comfortable prospecting, sampling and interpreting the geology of the outcrops encountered on the traverses. As the team lead, they will be responsible for the collection of data and directing their team partners.
